Education

L.B.H.S.S.T 'S Institute of Computer Application, Mumbai
Masters In Computer Applications CGPI: 7.51/10.0
V.P.M 'S B. N. Bandodkar College of Science, Thane
B.S.C in Computer Science CGPI: 8.38 /10.0

Technical Proficiencies

Programming Languages: Java, JavaScript
Backend Technologies: JDBC, Servlet, JSP, Hibernate
Frontend Technologies: HTML, CSS, React.js
Databases: MySQL, PostgreSQL, SQL
Development Tools: Git, GitHub, VS Code, IntelliJ-IDEA, Eclipse
Soft Skills: Communication, Analytical Thinking, Problem-Solving, Research, Adaptability

Projects

Shop Ease – Full Stack E-Commerce Platform | Java Servlets, JSP, JSTL, PostgreSQL, Apache Tomcat, Maven *Link*

- Developed a full-stack e-commerce platform using Java Servlets and JSP with role-based authentication for Admin and Customer.
- Developed core e-commerce features including shopping cart, coupon/discount system, order invoice generation, user profile management, and low-stock alerts.
- Designed the application using MVC architecture with DAO pattern.
- Enhanced application security by integrating B-Crypt password hashing, session management, and protected admin routes.

Travel & Tourism Management System | Java Servlets, JSP, PostgreSQL, Maven ,Tomcat *Link*

- Built a full-stack MVC web application using Java 17, Jakarta Servlets 6.0, JSP, and PostgreSQL with a dedicated Controller → DAO → Model layer separation.
- Implemented role-based authentication for User and Admin with session management, server-side validation, and SQL injection prevention via parameterized JDBC queries.
- Managed database connectivity using a centralized DB-Connection utility class with JDBC, ensuring single-point configuration for all DAO operations.
- Developed an Admin Dashboard with complete CRUD operations on travel packages and booking records, protected by session-based auth guards.
- Automated build and dependency management using Apache Maven with clean WAR deployment on Apache Tomcat.

Weather Forecast Web Application | React, Vite, HTML, CSS3 *Link*

- Built a responsive Weather Forecast Web App using React and Vite with real-time API data and 5-day forecasts.
- Integrated interactive charts and Local Storage-based state management for enhanced user experience.
- Improved performance and UI with dark mode, geolocation, and optimized API calls.

Certifications

Cloud Computing – NPTEL | Jul–Oct 2025

- Completed 12-week course with 60% score.
- Learned cloud architecture, virtualization, distributed systems, and cloud service models (IaaS, PaaS, SaaS).

Java Full Stack Development Training | J Spider Software Training Institute, Thane.

- Completed industry-oriented Java Full Stack Development training covering front-end, back-end, and database technologies.
